Zoom equipment is in. We also received the business cards we ordered, please take business cards and hand them out to your home counties and any Fire Police that maybe interested. Looking into both the Harrisburg Fire Expo as well as the Western PA (Monroeville) Fire Expo for 2027. Also looking into the PA Fireman's convention in September 2026 in Monroeville and the Pump Primers event in Harrisburg. If anyone has any other event ideas that we should try to attend please let any of the exec board know.

Survey: still on the website about the needs of the fire companies. Cannot try to fix the problems if we do not know them.

Reports: Pa wide collection of responses in in the works on the website, any organization can report not just the county associations. Will have it open to all so when we go talk to law makers about needs we have the backup.

Shirts: Currently testing 3 shirts, looking at the material, wear, fits etc. after we make sure they are good to go we will put up on the website to sell along with possibly challenge coins, and other idea if there are any.

Meetings for 2026: Locations TBD.

- July 12
- September 13- Nominations
- November 8-Elections

New Business:

Reminder that all applications and checks should now be made out the Fire Police of Pennsylvania or FPofPA and no longer made out to East Pennsboro.

Discussion about counties still in the other association vs how many have left and joined us, some want to see positivity come out of us before they make the switch.

Good of the Association:

Discussion about how the emails from the association are titled when sent out. They will say w3CRM notifications in the from box and the email will be notifications@w3cloudcrm.com. We will be putting a note on the website as well as making sure that FPofPA is in the subject line but please do not ignore these emails. If you are not receiving the emails please let us know.

Discussion about the Maine Firefighter that lost his life in the line of duty and a reminder that this business is dangerous, we hope that all organizations appreciate the fire police as with fire there is science behind that the firefighters can learn, there is no science on human behavior and it is unpredictable.

Dottie Chatteau (Cumberland) made motion to adjourn seconded by Walter Gardner (Cumberland). Motion Passed.

Meeting Adjourned at 2:07pm

Respectfully Submitted,

Amber Lynn Blusiewicz

Recording Secretary.
